Please find attached the electronic version of the 2017 Jefferson County Jail Inspection report which was once mailed in hard copy format. In accordance with [20 ILCS 3954 the Green Governments Illinois Act](#), the Illinois Department of Corrections is working to reduce waste and waste generation in its office and facility operations. Building a culture of sustainability in our agency will help to make us better stewards of the resources entrusted to us. We are dedicated to use common sense solutions, encourage innovation, and empower our staff, as well as offenders to help us in shifting the paradigm when it comes to defining our approach to sustainable practices as it relates to our daily operations. The sustainable activities occurring in our facilities have been impressively far reaching and will continue flourish. We hope you find this new electronic document a positive step towards the environment and a more efficient approach. For more information about the [Department's sustainability](#) efforts visit our website.
