

MOWING POLICY

It is the intent of the Jefferson County Highway Department to ensure safe travels on all County Highways. The County will make every effort to keep the right-of-way clear of obstructions throughout the year, however, resources are limited and every roadway may not be clear at all times.

The Policy of the Jefferson County Highway Department is to mow one pass on every highway at the beginning of the mowing season. Throughout the summer months to the end of mowing season, the Department will mow to the extent of the right-of-way where possible.
