

Property Tax 101 – Week 11: Real Estate Tax Cycle

From the time the tax cycle is started and assessments are entered, all the way to the tax sale, many steps must be taken per state statute. State statutes dictate everything from our due dates to the timing of our newspaper publication.

Our office has created a flow chart that summarizes the steps involved in the creation of the tax bills and steps we have to take in order to take a property to the tax sale. This chart can also be found at our website www.jeffersoncountyillinois.com, under Departments; Treasurer/Collector; Property Tax 101.

“If you have any questions, or would like more information, please contact our office at 618-244-8010. We are here to help in any way we can.”

Next week: The Annual Tax Sale
