

Property Tax 101 - Week 3: My bank has always paid my property tax, but I no longer have a mortgage. What happens now?

Answer: Just as always, you will continue to receive a tax bill in the mail. There are several payment options available:

Your payment can be made by mailing it to our office.

Payment can be made in the lobby at most local banks. **Banks do not accept payment of mobile home taxes.**

You can come in person to the Treasurer's office at the courthouse.

Taxes can be paid online by credit card or e-check by going online to <http://www.jeffersoncountyllinois.com> and select the "Pay Online" tab in the upper right side of the page. **There is a fee for this option.**

Additionally, prepayment of 'next' year's tax bill can be made from the **first business day in December** through the **last business day in June**.

"If you have any questions, or would like more information, please contact our office at 244-8010. We are here to help you in any way we can."

Next week: I cannot pay my taxes before the tax sale. Does this mean I am going to lose my property?
